JFR 2017

«AIRP Courses »

Saturday 14 & Sunday 15 October 2017
Room 251 - Palais des Congrès, Paris
Responsable : Eric De Kerviler
Every year, the AIRP seminar (American Institute for Radiologic Pathology) of the JFR, consisting of 9 25-minutes courses, allows us to welcome 3 excellent American speakers.

These remarkable radiopathological correlations allow a better understanding of the medical imaging. The themes chosen this year are: cardiovascular imaging, pediatric imaging and musculoskeletal imaging.

For more convenience this seminar benefits from a simultaneous translation (English to French)

---

**Cardiovascular imaging - Aletta Ann Frazier**

Moderator: Vania Tacher

Thoracic Vasculitis: Part 1
Thoracic Vasculitis: Part 2
Spectrum of coronary artery aneurysm

---

**Pediatric imaging - Ellen M. Chung**

Moderator: Guillaume Gorincour
